

Make life easier with an Accutrend® Plus starter kit

*Screen patients for cholesterol quickly
with an easy-to-use handheld meter*

The new Accutrend Plus system from Roche is ideal for professional use at health screening fairs and other non-hospital settings.

- Cholesterol results in just 3 minutes
- CLIA-waived
- Monitor cholesterol and blood glucose
- Dosing outside of meter helps prevent cross-contamination, improve patient safety
- Portable and lightweight, with an ergonomic design for easy handling
- Large, easy-to-read screen helps ensure accurate reading of results
- Ideal for health fairs, physician offices, pharmacies and home health agencies

For a limited time, the Accutrend Plus meter, test strips and controls are available in a convenient 6-box or 12-box starter kit, shipped directly to your customer. No re-packaging, no hassles.

It's a fast, easy way to jump-start your customer's screening program – and your business.
