

Laboratory Hazards Safety Guide

Prepare

Prevent

Protect

Respond

Strengthen Your Safety Foundation with the **Four Pillars of Safety**

Prepare — To properly prepare, first observe and understand the processes taking place in the workplace, the duration of employee exposure to hazards, and possibilities for minimizing those risks. If this sounds a lot like an audit, you're exactly right. Fisher Scientific™ safety specialists can help you build on your safety foundation with cutting-edge auditing and training solutions.

Prevent — Prevention includes adding proper signage, storage cabinets and containers, cleaning materials, and waste disposal items to work areas while organizing and considering ergonomic needs in those spaces. We offer many resources that can help you with these steps, including industry experts who can provide you with hazard assessments for chemical handling and storage, recommendations for HAZCOM labeling, and advice about locations for eyewash and safety shower installations — often at no cost to you.

Protect — Personal Protective Equipment (PPE) is the last line of defense for employees. The correct selection of PPE is critical to protecting workers from hazards, but is only the first part of the process. Employees must be educated about the limitations of PPE and then properly fit with and trained to wear and maintain their PPE. Fisher Scientific Sales Representatives and our supplier partners can assist you in selecting the PPE to protect what matters most — your people.

Respond — Accidents can still happen, even with the best planning. Be ready to respond quickly and properly with AEDs, first aid kits, spill control kits, or emergency showers. These items for the “what-if” hazards in your workplace can be identified during the Prepare, Prevent and Protect review. If you are unsure of their maintenance requirements or a good strategic location, we can help.

Why Choose Us for Your Lab Safety Needs?

The Fisher Scientific channel is the leader in serving science and supporting laboratory customers. Our strong relationships with industry-leading suppliers allow us to help you build upon and improve your existing laboratory safety program.

Safety Solutions

Our team of trained safety specialists, strategically located across North America, can provide you with the safety solutions and support you need to meet all your safety requirements.

Premium Products

Flip through this convenient guide to get an overview of some of the many products that laboratories need and use on a regular basis. The entire portfolio includes more than 75,000 items, so this is only a small representation of the safety and emergency equipment available.

Advanced E-Commerce Capabilities

The Fisher Scientific channel leads the industry in advanced e-commerce solutions for organizations like yours. Our website serves as a powerful procurement tool, delivering real-time availability and contract pricing information in a secure ordering environment.

Logistics Solutions

The Fisher Scientific team is able to provide you with exceptional service through a nationwide network of advanced distribution centers.

OSHA 1910.132(a)

Protective equipment, including personal protective equipment for eyes, face, head, and extremities, protective clothing, respiratory devices, and protective shields and barriers, shall be provided, used, and maintained in a sanitary and reliable condition wherever it is necessary by reason of hazards of process or environment, chemical hazards, radiological hazards, or mechanical irritants encountered in a manner capable of causing injury or impairment in the function of any part of the body through absorption, inhalation or physical contact.

Biological Hazards

Biological agents include bacteria, viruses, fungi, other microorganisms and their associated toxins. They have the ability to adversely affect human health in a variety of ways, ranging from relatively mild, allergic reactions to serious medical conditions, even death. These organisms are widespread in the natural environment; they are found in water, soil, plants, and animals. Because many microbes reproduce rapidly and require minimal resources for survival, they are a potential danger in a wide variety of occupational settings. (Source: OSHA)

Prepare

Keep Your People Safe with Our Proven Experience

Get Real-Time Results with AuditPro (U.S. only)

Heidolph™ AuditPro offers a complete solution to help you maintain compliance with EPA, OSHA and fire safety regulations.

Visit fishersci.com/auditpro to learn more.

SafetySkills™ Online Learning Management System

Experience all the benefits of a comprehensive workplace safety training program at a fraction of the cost of more-traditional training.

Visit fishersci.com/safetyskills to learn more.

Prevent

We're the proactive solution that helps keep you safe.

Wearwell™ UltraSoft Diamond-Plate Mats

UltraSoft anti-fatigue mats are designed for comfort and performance. They resist abrasion and most chemical spills.

Catalog Numbers: 19-042-225, 19-042-226, 19-042-227, 19-042-228, 19-042-229, 19-042-230, 19-150-0081, 19-150-0082, 19-150-0092

Brady™ BMP™ 21 LAB Label Printers

The BMP21 printer can be used to produce labels that are unaffected by lab chemicals and can be used in autoclaves, liquid nitrogen, freezers and hot baths.

Catalog Number: 19-102-825

Brady™ BMP™ 51 Label Makers

The BMP51 label maker creates labels without being tethered to a computer and features a large screen and built-in labeling apps.

Catalog Numbers: 19-140-391

Justrite™ Blue Polyethylene Acid Storage Cabinets

Polyethylene acid storage cabinets provide maximum protection against harsh environments and highly corrosive chemicals. Available in both countertop and undercounter models, each prominently labeled with "ACID."

Catalog Number: 18-999-4413A, 18-999-4413B

Justrite™ Sure-Grip™ EX Undercounter Corrosives/Acid Safety Cabinets

Metallic undercounter cabinets feature dual vents with flash arrestors, one adjustable shelf and two manual or self-closing doors.

Catalog Number: 17-154C, 19-033-720

Justrite™ Acids Cabinets with ChemCor™ Liners

The exposed cabinet surfaces (interior walls, ceiling, sump, shelves and interior doors) in these metallic acid cabinets have a 100% seamless ChemCor thermoplastic liner to protect them from rust and corrosion.

Catalog Numbers: 19-159-704, 19-159-819

Justrite™ Sure-Grip™ EX Slimline Flammable Safety Cabinets

Slimline cabinets offer fire resistance in a compact design and feature dual vents with flame arrestors, SpillSlope™ safety shelves, and a built-in grounding connector.

Catalog Numbers: 19-160-377, 19-160-387

Justrite™ Centura™ Safety Disposal Cans

Polyethylene disposal cans with quick-disconnect system permit "hands-free" liquid waste accumulation to protect users from chemical exposure. They're suitable for pump-fed or gravity-flow HPLC waste methods.

Catalog Numbers: 19-040-880, 19-059-378

Fisherbrand™ Box Holders for Glass-Disposal Boxes

Acrylic box holders provide extra protection for glass-disposal boxes. When the box is full, the top and center shield remove easily while the bottom tray stays in place to protect the box during transport to the disposal area.

Catalog Number: 17-988-449, 17-988-450, 17-988-451

Did you know?

Ninety-five percent of OSHA's current permissible exposure limits (PELs) that exist for fewer than 500 chemicals have not been updated since their adoption in 1971. (OSHA last attempted to update its PELs in 1989, but the effort was denied by the courts.) Instead, OSHA published "recommended" exposure levels that are more stringent than their corresponding PELs and are based on occupational exposure limits (OELs) set by NIOSH, the American Conference of Governmental Industrial Hygienists and Cal/OSHA. (Source: EHS Today)

Protect

Protecting your people from head to toe is our number one priority.

Apparel | Eye Protection | Hand Protection | Respiratory Protection

Apparel

Fisherbrand™ Disposable Polyethylene Aprons

Featuring sturdy, reusable construction, these lightweight, disposable aprons are made from 0.025mm thick plastic and come in a handy dispenser pack.

Catalog Numbers: 19-181-529

Kimberly-Clark™ Professional KleenGuard™ A70 Chemical Spray Protection Apron

KleenGuard A70 aprons are coated with polyethylene to protect the wearer from many water-based liquids, greases, oils, and liquid chemical sprays.

Catalog Number: 19-166-520

DuPont™ Tyvek™ 120S Series Coveralls

Designed to be worn over clothes, these coveralls are chemically and biologically inert, tear-resistant, and offer limited splash protection.

Catalog Numbers: 01-361-1b, 01-361-1c, 01-361-1d, 01-361-1e, 01-361-1f, 01-361-1g, 01-361-1h

Kimberly-Clark™ Professional KleenGuard™ A40 Liquid and Particle Protection Coveralls

Protect yourself from nonhazardous liquids with a microporous, nonwoven film laminate that offers a better liquid barrier than regular SMS apparel.

Catalog Number: 19-120-2398b, 19-120-2398c, 19-120-2398d, 19-120-2398e, 19-120-2398f, 19-120-2398g

Fisherbrand™ Basic Protection Disposable Lab Coats

Latex-free, disposable spunbond polypropylene lab coats offer basic protection and feature a snap closure and elastic wrists.

Catalog Number: 17-100-801, 17-100-802, 17-100-803, 17-100-804, 17-100-805, 17-100-806, 17-100-807

DuPont™ ProShield™ 3 Boot Covers

ProShield boot covers provide coverage up to the calf (H: 10 in.) and are made from a spunbond polypropylene substrate coated with an LDPE film for enhanced skid-resistance and barrier performance.

Catalog Numbers: 19-715-318, 19-715-370

DuPont™ Tychem™ ThermoPro™ Aprons

Designed for industrial workers and hazmat responders, these sleeveless aprons offer permeation protection against toxic industrial chemicals, chemical warfare agents and electric arc, and can provide escape time during flash fires.

Catalog Numbers: 19-122-000, 19-122-001, 19-122-002, 19-122-003, 19-122-004, 19-122-005, 19-122-006, 19-122-007, 19-141-761

DuPont™ Tychem™ QC 122 Series Coveralls

Tychem QC coveralls provide at least 30 minutes of protection against 42 chemical challenges. They feature an attached hood and boots with elastic around the face opening and wrists for a secure fit.

Catalog Numbers: 19-715-321, 19-014-971, 19-088-1691, 19-085-218, 19-085-219, 19-051-254, 19-141-760, 19-088-326a, 01-361-32d, 19-088-326b, 17-987-27b, 19-088-326D

DuPont™ Tychem™ SL 122 Series Coveralls

Laminated with Dow™ Saranex™-23P film, these coveralls feature a zipper front (with storm flap) and attached hoods and boots, making them excellent for waste management, PCB cleanup, hazardous response and nuclear environments.

Catalog Number: 19-088-348b, 19-088-348c, 19-088-348d, 19-088-348e, 19-088-348f, 19-088-348g

Did you know?

In 2016, falls in the workplace were the number one OSHA violation (with nearly 7,000 incidents). (Source: EHS Today)

Protect

Kimberly-Clark™ Professional KleenGuard™ A70 Chemical Spray Coveralls

Featuring sturdy, reusable construction, these lightweight, disposable aprons are made from 0.025mm thick plastic and come in a handy dispenser pack.

Catalog Numbers: 19-166-485, 19-166-486, 19-166-487, 19-166-488, 19-166-489, 19-166-490

Workrite FR FR/CP™ Lab Coats

Workrite lab coats are made with Nomex IIIA fabric that prevents ignition in short-duration thermal accidents and are treated with ShieldTec, which repels small amounts of liquid chemicals that may be dropped or splashed on the fabric.

Catalog Numbers: Men: 19-800-050, 19-800-051, 19-800-052, 19-800-053, 19-800-054, 19-800-055, 19-800-056, 19-800-057, 19-800-058, 19-800-059, 19-800-060, 19-800-061, 19-800-062, 19-800-063, 19-800-064, 19-800-065, 19-800-066, 19-800-067, 19-800-068, 19-800-069, 19-800-070, 19-800-071, 19-800-072, 19-800-073, 19-800-074

Onguard™ Latex HazMat Overboots

Made from 0.6mm thick latex rubber, Onguard overboots are 100% waterproof, feature ribbed and textured soles for improved traction, and are recommended for spill cleanup and utilities work.

Catalog Number: 19-051-495, 19-051-497, 19-054-801

Onguard™ Polyblend™ Work Boots

Onguard work boots are injection-molded polyurethane and PVC plastic to provide moderate chemical resistance. They feature cleated nonslip outsoles and steel shanks and toes, and are ideal for use in chemical and poultry processing, mining, and commercial fishing.

17-986-327, 17-986-328, 17-986-329, 17-986-330, 17-986-331, 17-986-332, 17-986-333

Servus™ XTP™ PVC Non-Safety Toe Work Boots

Injection-molded to provide 100% waterproof protection, these boots feature Triple Density Technology for increased resistance to chemical degradation and a dual-compound outsole for tough, longwearing support.

19-920-119, 19-920-120, 19-920-121, 19-920-122, 19-920-123, 19-920-124, 19-920-125, 19-920-126, 19-920-127, 19-920-128, 19-920-129, 19-920-130, 19-920-131

Onguard™ Hazmax™ Boots

With steel toes, midsoles and ladder shanks, and chemical-resistant uppers, Ultragrip™ outsoles, and limited flash fire protection, these boots are ideal for emergency response teams, hazmat technicians, environmental specialists and site remediation workers.

17-985-403B, 17-985-403C, 17-985-403D, 17-985-403E, 17-985-403F, 17-985-403G, 17-985-403H, 17-985-403I, 17-985-403J, 17-985-403K

Kimberly-Clark™ Professional Jackson Safety™ V80 MonoGoggle™ Safety Goggles (U.S. only)

The V80 MonoGoggle features standard or fog-resistant polycarbonate lenses that provide 99.9% UV protection and can be worn with a half-mask cartridge or disposable respirator.

Catalog Number: 17-277-1A, 17-277-1B, 17-277-1C, 19-062-307, 19-706-025

Uvex™ Stealth™ Chemical-Splash Goggles

Goggles feature a polycarbonate lens coated with uvextreme™ coating for protection against fogging, scratches, static dust and UV rays. The lightweight, compact design accommodates disposable respirators and other PPE and the PVC body conforms to the face for a comfortable, gap-free fit.

Catalog Numbers: 18-999-2312, 18-999-2313, 18-999-2314, 18-999-2315, 18-999-2316, 17-377-403, 19-823-231

Uvex™ Carbonvision™ Safety Goggles

Uvex Carbonvision goggles weigh just over 1.5 oz. and have a soft, flexible frame that adapts to the face to ensure proper fit and seal for protection and all-day comfort. They meet the ANSI Z87.1-2010 standard and are certified to the requirements of the CSA Z94.3 standard.

Catalog Number: 19-111-202, 19-111-203, 19-111-204, 19-111-205

3M™ Maxim™ Splash Goggles

Goggles feature a lightweight frame with polymeric materials, for comfort at the cheeks, forehead and nose. The Duosoft shroud provides all-day comfort and indirect ventilation to allow for improved circulation, comfort and reduced fogging.

Catalog Number: 19-165-401

PIP™ Bouton™ Optical Dual Lens Goggles (U.S. only)

Dual lens goggles are designed to better prevent fogging and feature a foam-padded surface and an elastic (or neoprene) headband for a comfortable seal and fit.

Catalog Numbers: 19-148-205, 19-148-206, 19-148-212

Honeywell™ Uvex™ Entity Safety Goggles

Entity safety goggles are designed with an indirect ventilation system, and they are able to accommodate disposable respirators and other PPE. The toric-shaped lenses protect against impact, dust and chemical splash hazards, and the PVC body conforms to the face for a comfortable, gap-free fit.

Catalog Numbers: 19-066-251

Eye Protection

Fisherbrand™ Economy Chemical-Resistant Goggles (U.S. only)

The clear, polycarbonate lenses of these goggles resist a broad range of chemicals, and the soft, flexible PVC body with circular vents and adjustable strap ensure a custom, comfortable fit.

Catalog Numbers: 19-181-502, 19-181-504

Did you know?

Every year, eye injuries account for more than \$300 million dollars in lost productivity, medical treatment costs and worker compensation. (Source: OSHA)

Protect

Kimberly-Clark™ Professional Jackson Safety™ V80 Revolution™ OTG Goggles (U.S. only)

The impact-resistant polycarbonate lenses of these goggles feature a VisiClear™ anti-fog, anti-scratch and anti-static coating, and Cross Vent™ technology to keep air flowing in and moisture and chemical splashes out. Goggles meet ANSI Z87.1-2010 standards.

Catalog Numbers: 19-130-0480

Fisherbrand™ 200 Series Spectacles (U.S. only)

Spectacles feature molded-in side shields and brow guards with one-piece lenses that provide an unobstructed field of vision and absorb over 99.9% of harmful UV light.

Catalog Number: : 19-130-2088, 19-130-2089

Honeywell™ North™ Adaptec™ Safety Glasses

Available in three sizes, six lens tints and two frame colors, these glasses feature self-adjusting nose pads and adjustable temple hinges for optimal eye protection.

Catalog Numbers: 17-986-711, 17-986-719, 17-986-727

3M™ SecureFit™ Protective Eyewear

SecureFit eyewear self-adjusts for a secure, snug fit and features polycarbonate lenses with anti-fog and anti-scratch coating. Clear, amber and grey lenses are available.

Catalog Number: 17-623-700, 17-623-701, 17-623-702, 17-623-703, 17-623-704, 17-623-705

3M™ Virtua™ Eyewear (U.S. only)

Virtua eyewear provides lightweight, comfortable protection with contoured, flexible temples and sleek, polycarbonate wrapped lenses for protection with an unobstructed view.

Catalog Numbers: 19-121-275, 19-121-276

Kimberly-Clark™ Professional Jackson Safety™ Nemesis™ Eyewear

Nemesis glasses feature a sleek, sporty style and lightweight construction with polarized lenses to provide 99.9% UV protection.

19-150-0471, 19-150-1659, 19-706-005, 19-014-380

Fisherbrand™ Disposable Face Shields

Disposable face shields include a latex-free foam band and polyester lenses that have been treated with anti-fog and anti-static coatings.

Catalog Numbers: 19-181-600A, 19-181-600B, 19-181-600C

Honeywell™ North™ Protecto-Shield™ Face Shields

Protecto-Shield Face Shields feature sturdy brow guard constructed from a heat-resistant thermoplastic polymer and a brim overhang that keeps fluids from splashing or dripping inside the window.

Catalog Number: Headgear: 18-999-4459 Replacement Windows: 18-999-2990, 18-999-2991

3M™ Deluxe Headgear

Deluxe Headgear features high-strength crown protectors to provide impact resistance and a flexible system that allows you to choose the headgear and windows separately. Windows are available in 0.04 in. thick clear polycarbonate, 0.08 in. thick clear or green polycarbonate, or 0.8 in. thick clear propionate.

Catalog Numbers: Headgear:19-053-165 Window: 19-040-038, 19-060-701, 19-071-158, 19-053-169

Hand Protection

Fisherbrand™ Powder-Free Nitrile Exam Gloves (U.S. only)

Disposable nitrile exam gloves contain no latex proteins and feature a textured surface for solid grip in wet or dry conditions.

Catalog Number: 19-130-1597A, 19-130-1597B, 19-130-1597C, 19-130-1597D, 19-130-1597E

Fisherbrand™ Comfort Nitrile Exam Gloves (U.S. only)

Fisherbrand Comfort gloves are powder- and latex-free and provide exceptional fit, feel and durability with textured fingers and beaded cuffs.

Catalog Number: 19-041-171A, 19-041-171B, 19-041-171C, 19-041-171E, 19-041-171F

Fisherbrand™ Extended Cuff Nitrile Exam Gloves (U.S. only)

Nitrile exam gloves feature a fully textured finish for durability and an extended cuff for added protection from chemotherapy drug exposure.

Catalog Numbers: 19-041-170A, 19-041-170B, 19-041-170C, 19-041-170D

Medicom™ SafeTouch™ Advanced™ Force Nitrile Examination Gloves

(Canada only) 

For protection in medical, industrial and laboratory applications use these gloves, which are made from premium stretchy nitrile that provides exceptional strength, consistency and comfort.

Catalog Numbers: 29-636-6004, 29-636-6005, 29-636-6006, 29-636-6007, 29-636-6008

Kimberly-Clark™ Professional Nitrile Powder-Free Exam Gloves

With textured fingertips for enhanced wet and dry grip, these gloves are recyclable through the RightCycle™ program. Choose from forest green or spring green.

Catalog Numbers: Forest Green: 19-169-072, 19-169-073, 19-169-074, 19-169-075, 19-169-076, 19-169-077 Spring Green: 19-169-067, 19-169-068, 19-169-069, 19-169-070, 19-169-071, 19-169-072

Did you know?

Employers shall select and require employees to use appropriate hand protection from skin absorption of harmful substances; severe cuts or lacerations; severe abrasions; punctures; chemical burns; thermal burns; and harmful temperature extremes. (Source: OSHA 1910.138)

Protect

Microflex™ XCEED™ Powder-Free Nitrile Examination Gloves

XCEED gloves are one of the lightest-weight gloves on the market today and help reduce hand fatigue and muscle effort, making them perfect for a range of single-use applications.

Catalog Number: 19-177-520, 19-177-521, 19-177-522, 19-177-523, 19-177-524

Microflex™ Ultraform™ Powder-Free Nitrile Exam Gloves

Field tests have shown that Ultraform gloves perform better than bare hands in tasks that require fine motor skills.

Catalog Numbers: 19-167-301, 19-167-302, 19-167-303, 19-167-304, 19-167-305

Microflex™ MidKnight™ Black Powder-Free Nitrile Examination Gloves

MidKnight gloves offer durability and security with tactile sensitivity for precise contact and a consistent grip. They are textured for a secure grip in wet and dry conditions.

Catalog Number: 19-168-967A, 19-168-967B, 19-168-967C, 19-168-967D, 19-168-967E and 19-168-967F

Microflex™ NeoPro™ Chloroprene Powder-Free Exam Gloves

NeoPro gloves are made of polychloroprene that provides better puncture resistance than latex, the barrier of a synthetic glove, and the comfort and fit of natural rubber latex. The textured fingers ensure a secure grip and the beaded cuff allows for easy donning and doffing.

Catalog Numbers: 19-120-3010A, 19-120-3010B, 19-120-3010C, 19-120-3010D, 19-120-3010E, 19-050-340A, 19-050-340B, 19-050-340C, 19-050-340D, 19-050-340E

Ansell™ Sol-Knit™ Gloves

Gloves resist wear and tear from abrasion and sharp edges, and harm from fuels, lubricants, acids, solvents, and a range of hazardous chemicals, making them ideal for automotive assembly, chemical handling, graphic arts, and general maintenance work.

Catalog Number: 11-394-38B, 11-394-38C and 11-394-38D; 19-806-114, 19-806-115, 19-806-116, 19-806-117

Ansell™ Sol-Vex™ Nitrile Gloves

Sol-Vex Gloves won't weaken or swell in many solvents, caustics or animal fats, making them ideal for numerous applications.

11-391-137A, 11-391-137B, 11-391-137C, 11-391-137D, 11-391-137E, 11-391-139A, 11-391-139B, 11-391-139C, 11-391-139D, 11-391-139E, 11-391-139F, 11-391-140A, 11-391-140B, 11-391-140C, 11-391-140D, 11-391-140E

PIP™ Unsupported Lightweight Nitrile Gloves (U.S. only) 🇺🇸

PIP gloves have a lightweight construction and a hand-specific design that provides comfort and protection from chemical and physical hazards.

Catalog Numbers: 19-151-232, 19-151-233, 19-151-234

Honeywell™ North™ Nitrile-Knit™ Gloves

(U.S. only) 🇺🇸

Nitrile-Knit Gloves feature high nitrile content that offers superior resistance to cuts, snags, abrasions and punctures, and they will not swell, sag or weaken from fat absorption. The insulated version provides added protection from cold and heat and is recommended for temperatures from -23° to 149°C.

Catalog Numbers: 19-150-1051, 19-150-1052, 19-150-1053, 19-150-1054, 19-150-1055, 19-150-1056, 19-150-1057, 19-150-1058, 19-150-1059, 19-150-1060

Ansell™ ChemTek™ Viton/Butyl Chemical Handling Gloves

The viton layered over butyl gives you a lower-cost glove with an extra level of protection in applications involving aromatic chemical and chlorinated solvents.

Catalog Number: 19-162-032, 19-161-442, 19-162-033

Ansell™ Chemi-Pro™ Gloves

Chemi-Pro Gloves provide increased protection against acids, animal fats, caustics, salts and ketones, and are made with a unique dipping process that layers neoprene over natural latex.

Catalog Numbers: 19-014-481, 19-014-484, 19-014-486, 19-014-488

MAPA™ StanZoil™ Knit-Lined Multi-Layer Supported Neoprene Gloves (U.S. only) 🇺🇸

Gloves combine flexibility with abrasion, cut and tear resistance, and have a unique multi-dip construction for liquid-proof hand protection and chemical resistance.

Catalog Number: 11-392-31A, 11-392-31B, 11-392-31C, 11-392-31D, 11-388-118A, 11-388-118B, 11-388-118C, 11-388-118D

MAPA™ StanSolv™ Unlined Nitrile Gloves

StanSolv Gloves feature a chlorinated finish for easier donning and doffing and a z-pattern grip to channel liquids away from the glove surface. They are made from a nitrile compound that provides resistance to snags, punctures, abrasions and cuts.

Catalog Numbers: 11-392-1C, 11-392-2A, 11-392-2B, 11-392-2C, 11-392-2D, 11-392-2E, 11-392-4A, 11-392-4D, 11-392-4E, 19-042-652, 11-392-5A, 11-392-5B

PIP™ ATG™ MaxiChem™ Cut™ Nitrile Blend Coated Gloves (U.S. only) 🇺🇸

Gloves feature ATG LiquiTech™ technology to deliver chemical resistance and a microcup non-slip finish on the palms for a good grip even in oily or wet situations.

Catalog Numbers: 19-148-207, 19-148-208, 19-148-209, 19-148-210, 19-148-211

Ansell™ Unsupported Neoprene Gloves

Gloves feature straight cuffs, curved fingers, and contoured palms, and are case-hardened to provide excellent resistance to abrasion and a wide range of chemicals.

Catalog Numbers: 11-391-130A, 11-391-130B, 11-391-130C, 11-391-130D, 11-391-130E

Protect

Honeywell™ North™ Butyl Gloves

Gloves are made from butyl synthetic rubber, are available with a smooth or rough Grip Saf™ finish and are designed for use with ketones and esters.

Catalog Numbers: 11-394-9A, 11-394-9B, 11-394-9C, 11-394-9D, 11-394E

Honeywell™ North™ Silver Shield/4H™ Gloves

Silver Shield/4H gloves are resistant to over 280 different chemicals and provide high-performance protection in the most demanding applications.

Catalog Numbers: 18-999-431A, 18-999-431B, 18-999-431C, 18-999-431D, 18-999-431E, 18-999-431F, 19-150-0892

Ansell™ HyFlex™ Ultralight Weight Multi-Purpose Gloves (U.S. only)

FORTIX nitrile foam coating extends the life of your gloves and provides enhanced dry grip and breathability, while offering protection for a range of assembly and handling tasks.

Catalog Numbers: 19-148-410, 19-148-411, 19-148-412, 19-148-413, 19-148-414, 19-148-415

Ansell™ HyFlex™ Lightweight Cut-Resistant Gloves

Featuring Dyneema™ Diamond Technology for high comfort and high safety, these are the first gloves to provide ANSI™ cut level 2 in an 18-gauge style.

Catalog Numbers: 19-152-000, 19-152-001, 19-152-002, 19-152-003, 19-152-004, 19-152-005

PIP™ ATG™ MaxiFlex™ Cut™ Micro-Foam Nitrile Coated Gloves

Gloves feature a black micro-foam nitrile coating for 360° breathability and are made with unique, high-performance yarns and fibers developed for cut protection.

Catalog Numbers: 19-160-390, 19-160-391, 19-160-392, 19-160-393, 19-160-394, 19-160-395, 19-152-930, 19-152-931, 19-152-932, 19-152-933, 19-152-934, 19-152-935

Fisherbrand™ Select Leather Palm Gloves (U.S. only)

Gloves are made from select-grade shoulder-split cowhide with a gunn-cut construction that extends the life of the glove.

Catalog Numbers: 19-059-668, 19-067-903, 19-013-469, 19-067-904, 19-013-471, 19-013-472

Fisherbrand™ Pigskin Driver's Gloves

Driver's gloves return to their original pliability even after being soaked in water. They are suited for construction, machine operation, utility work and many general applications.

Catalog Numbers: 19-043-035, 19-043-030, 19-043-020, 19-043-042

Respiratory Protection

3M™ Comfort Plus Disposable Filtering Facepiece Respirators

N95 respirators provide protection against certain non-oil-based particles and feature a Cool Flow valve for easy exhalation and cool comfort.

Catalog Numbers: 19-120-299, 19-002-713, 19-168-176, 19-164-104

3M™ 6000 Series Reusable Half Facepieces

Lightweight, low-profile facepieces offer excellent visibility with backswept cartridges for better balance on the face.

Catalog Number: 17-986-9A, 17-986-9B, 17-986-9C, 17-987-3A, 17-987-3B

3M™ 6000 Series Reusable Full Facepieces

Facepieces are made from a soft, lightweight material and feature easy-to-use head straps and large, scratch-resistant lenses.

Catalog Numbers: 18-999-4555, 18-999-4556, 18-999-4557

3M™ 6000 Series Cartridges/P100 Particulate Filter Combinations

6000 Series cartridges and P100 particulate filter combinations can be used for contaminant concentration up to 10x the permissible exposure limit (PEL) with half-facepiece respirators or 50x the PEL with full-facepiece respirators.

Catalog Number: 18-999-4548, 18-999-4549, 18-999-4550, 18-999-4551, 18-999-4552, 19-070-341, 19-096-901

3M™ Organic Vapor Service Life Indicator Cartridges

Hang this sign in areas where employees are required to wear goggles to protect their eyes from chemical exposure.

Catalog Number: 19-070-350, 19-070-351

3M™ Versaflo™ TR-600-ECK Easy Clean PAPR Kits

The Versaflo PAPR kit is a complete, powered air-purifying respirator that includes everything you need to get started.

Catalog Number: 19-268-006

Brady™ “Caution: Chemical Goggles Required...” Laboratory Signs

Indicator cartridges feature a lightweight, low-profile design and are engineered to indicate service life based on individual exposure and respiratory-use patterns.

Catalog Number: 19-102428

Did you know?

Improper respiratory protection was one of the top five violations cited by OSHA in 2016. Companies were cited because employees were not medically evaluated as part of a respiratory protection program, were put in situations where overexposure to contaminants could occur, or were not properly fit-tested for respiratory protection. (Source: EHS Today)

Respond

When accidents happen, our products allow you to respond instantly.

Safety Instrumentation | Facility Safety

Safety Instrumentation

Thermo Scientific™ EPD Electronic Personal Dosimeters (U.S. only) 🇺🇸

Know your exposure to ionizing radiation and react quickly to rising levels of gamma, beta, neutron, or x-ray radiation with electronic personal dosimeters.

Catalog Numbers: 19-166-365

Facility Safety

Fisher Scientific™ Faucet-Mount Personal Eyewash Units (U.S. only) 🇺🇸

Personal eyewash units mount to either standard or gooseneck faucets and are activated by an actuator pin or adapter.

Catalog Numbers: 19-150-0470

Honeywell™ Fendall™ 2000 Emergency Eyewash Stations

Eyewash stations deliver up to 7L of 100% sterile saline solution in a constant, 15-minute flow. No plumbing is required. Saline cartridges have a 24-month shelf life and are sold separately.

Catalog Numbers: 19-811-406

Honeywell™ Fendall™ Porta Stream™ I Eyewash Stations (U.S. only) 🇺🇸

Gravity-fed systems provide six minutes of uninterrupted, soothing relief in emergency situations. They come with a saline concentrate that produces an isotonic solution (similar to human tears) when mixed with water.

Catalog Numbers: 17-292-1A

Honeywell™ Pure Flow 1000 Portable Emergency Eyewash Stations

(U.S. only) 🇺🇸

Self-contained, gravity-fed eyewash stations deliver 15 minutes of flushing with a preserved buffered saline solution.

Catalog Numbers: 18-999-265A

ZOLL™ Medical AED Plus™ Semiautomatic Defibrillator Packages

The AED Plus features ZOLL's unique one-piece electrode pad for fast and accurate placement and is the first and only full-rescue public access AED that provides Real CPR Help for rate and depth of chest compressions.

Catalog Numbers: 17-300-100, 17-300-101, 17-300-102

Fisherbrand™ 50 Gallon Chemical Spill Kits

The 50-gallon chemical spill kit includes 50 pads, four socks, eight pillows, one pair of goggles, one pair of nitrile gloves, five disposal bags, and a handbook.

Catalog Numbers: 19-140-938

Fisherbrand™ Chemical Absorbents

Absorbent pillows, socks, pads and rolls are chemically inert and color-coded for easy identification of different types of spills and hazards.

Catalog Number: Pad: 19-140-918, Roll: 19-140-919, Sock: 19-140-920, Pillow: 19-140-921

Fisherbrand™ Acid Neutralizing Spill Kits

Acid neutralizing spill kits include a 2 lb. shaker of acid neutralizer, a 3 lb. bag of granular absorbent, two locking plastic bags with white write-on area, goggles, gloves, boot covers, an apron, a dust pan, a hand broom, a spatula, and a plain label.

Catalog Number: 19-140-935

Respond

Fisherbrand™ Base Neutralizing Spill Kits

Base-neutralizing spill kits include one 2 lb. shaker of base neutralizer, 10 pads (15 x 19 in.), three socks, one pair of nitrile gloves, one pair of goggles, and two disposal bags.

Catalog Number: 19-140-936

Fisherbrand™ Combo Spill Kits

Combo spill kits include one 2 lb. shaker of acid neutralizer, one 2 lb. shaker of base neutralizer, one 3 lb. bag of granular absorbent, six plastic locking bags with white write-on area, goggles, gloves, boot covers, an apron, a dust pan, a hand broom, a spatula, and a plain label.

Catalog Number: 19-140-941

Fisherbrand™ 17 Gallon Chemical Spill Kits

17-gallon chemical spill kits include 12 pads, three socks, two pillows, one pair of goggles, one pair of nitrile gloves, three disposal bags, and a handbook.

Catalog Number: 19-140-973

Youngstown Barrel & Drum Ultra-SpillDeck™ Bladder Systems

Spill systems feature a hidden containment bladder that automatically unfurls to capture large spills or drum leaks.

Catalog Number: 19-058-005, 19-058-029

Kimberly-Clark™ Professional WypAll™ X80 Towels

Made with Hydroknit fast-absorbing material that feels like cloth, these towels come in three colors and retain their strength even when used with solvents.

Catalog Number: 15-235-80

Fisherbrand™ Glass-Disposal Boxes

Glass-disposal boxes are made from sturdy, corrugated cardboard, have a tough 2mm polyethylene liner and a unique integral lid for added safety.

Catalog Number: 17-988-448, 12-009-7A, 12-009-7B

Fisherbrand™ Polypropylene Biohazard Autoclave Bags

Bags have a maximum temperature rating of 140°C and pass a 165g dart impact resistance test. They include an elastic closure and are available printed or plain.

Catalog Number: 01-826-1, 01-826-2, 01-826-3

Youngstown Barrel & Drum Plastic Tight Head Drums

Drums are made of chemical-resistant, high-density polyethylene for transport of hazardous liquids.

Catalog Number: 18-120-237, 18-120-238, 19-058-095, 19-058-096, 19-058-097, 19-058-098, 19-058-099, 19-058-100

Medique™ Class B 50-Person First-Aid Kits

Well suited for small laboratory or office settings, these kits include first aid supplies for up to 50 people and mount on the wall for easy access.

Catalog Number: 19-090-670

Medique™ fend•all™ EyeSaline™ Eye and Face Wash Stations

Mount these double eyewash stations to the wall and have easy access to two replaceable 32 oz. bottles of eye and skin irrigation solutions in an emergency.

Catalog Number: 19-090-637

Medique™ Calgonate for Acid Burns

Ideal for burn relief, this calcium gluconate gel (2.5%) is available in squeezable 25g tubes.

Catalog Number: 19-090-630

Medique™ First Aid Cabinets

Suitable for small-to-medium industrial work settings and prefilled with supplies for 125 people, these three-shelf metal cabinets also have convenient door pouches for ready access to the most-commonly needed products.

Catalog Number: 19-090-661

Medique™ Water-Jel™ Burn Kits

Designed for large and minor burn emergencies, these soft-sided kits can be hung on the wall or placed in work vehicles. They include burn wrap, Water-Jel dressings, gauze and scissors.

Catalog Number: 19-090-624

Medique™ Medi-First™ Chemical Burn Kits

Provide quick treatment for chemical burns with kits that include: sterile pads, adhesive tape, gloves, scissors, Calgonate, stretch roller gauze, cold pack, antiseptic spray, Medi-Wash eyewash, eye pads, penlight, ammonia wipes and gauze pads.

Catalog Number: 19-090-629

North™ Bloodborne Pathogen Response Kits

Protect employees in accordance with OSHA 1910.130 and clean spills containing bloodborne pathogens with kits that include: a poison control directory, absorbent, wipes, a surgical mask, gloves, a shovel, shoe covers, two biohazard bags and two twist ties.

Catalog Number: 19-160-335

Contec™ Quiltex™ I Wipes

Clean interior surfaces, tools, or products with these durable, polyester wipes that have high sorption capacity and are ideal for cleanroom applications.

Catalog Numbers: 19-127-001, 19-033-742B

Did you know?

From 2006 to 2010, the leading cause of fire in manufacturing and industrial facilities was from flammable or combustible liquids and gases. (Source: NFPA)

LABORATORIES SAFETY CHECKLIST

Use this checklist to ensure that you have the equipment needed to protect your employees and facilities against safety hazards. Let us help you minimize your workers' risks of injury or illness by providing supplies and equipment to protect against the variety of hazards associated with laboratories.
