

Custom Service for Antibody Production

Our Technologies:

Abnova offers both monoclonal antibody (mAb) and polyclonal antibody (pAb) developments in mice, rats and rabbits tailored to customers' specific needs. Abnova's diverse immunization protocols can be adapted for native proteins, recombinant proteins, membrane proteins, conjugated peptides, and small molecules. With Abnova's stringent screening protocols, our custom antibodies are suitable for a wide range of applications, including WB, IHC, IF, IP, FC, antibody pair, sandwich ELISA, anti-idiotypic, phosphorylated, glycosylated, and small molecule epitopes. Rabbit monoclonal antibody production and antibody engineering are available upon request.

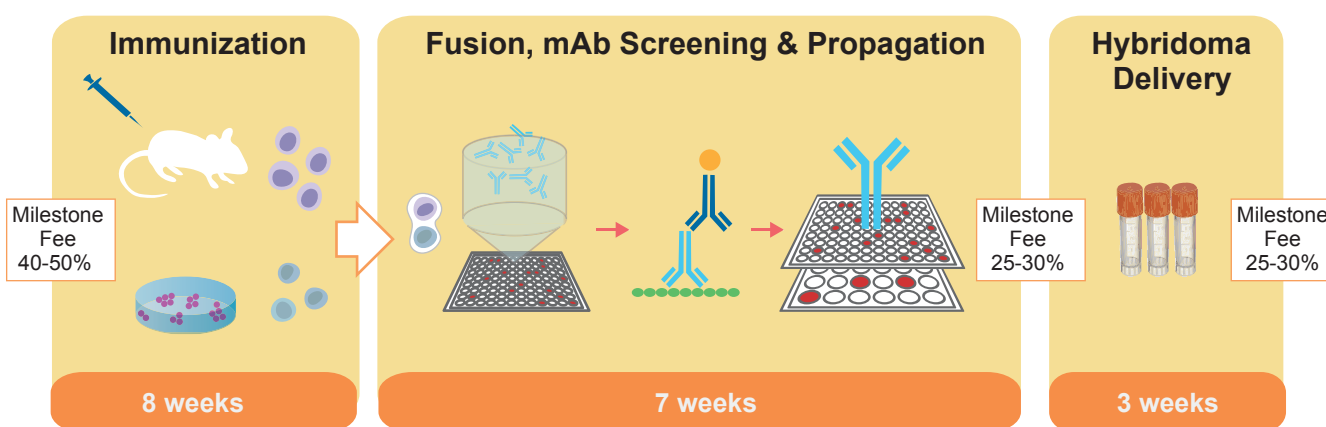

We Guarantee:

- Free Consultation and Experimental Design
- Strict Confidentiality
- Flexible Customization
- Optimized antigen preparation, immunization, screening, and purification
- Rigorous Quality Control
- Short Turn Around Time
- Affordable Price

Polyclonal Antibody Custom Service
