## INORGANIC AND ORGANIC CUSTOM STANDARDS

SPEX CertiPrep offers custom Certified Reference Materials (CRM) because we realize that no two laboratories face exactly the same samples, or have precisely the same requirements. With SPEX CertiPrep's custom CRM program, you can create custom standards to meet your specific laboratory needs. Our specialists will be happy to discuss combinations of elements, concentrations and preferred matrices with you. Our chemists will then design the most compatible, stable mixture using our comprehensive supply of starting materials and certified solutions. Your Science is Our Passion®.
