Two great brands join forces

New Amersham™ Western
blotting membranes

New Amersham Western blotting membranes

from GE Healthcare Life Sciences

Two great brands join forces

The trusted Hybond and Whatman brands combine to give Amersham Western blotting membranes, offering sustained high quality and performance.

- Optimized for chemiluminescent and fluorescent detection
- Excellent protein binding capacity over a wide size range
- Get 30% more with the new pack sizes
- Physical and chemical composition remains the same

New

Amersham membrane sandwiches—designed for convenience and ease-of-use

New

Amersham Hybond P 0.2 PVDF—specifically optimized for difficult Western blotting applications
